## Held In Connection With Robberies

Held in Hancock County jail under \$500 bond, awaiting a hearing are James Ellis, 19, Emmett Ellis, Will Nelson, 23 and Melvin Johnson, 18.

According to Sheriff Sylvan Ladner, the boys were apprehended Tuesday night at Lake Shore by Deputy Sheriffs Raoul Telhiard, Carl Garcia and Leonard Ladner for questioning in connection with numerous robberies that have taken place recently.

They were placed in the Hancock County jail, and were questioned Wednesday by Ladner, his deputies and City policeman Pat Garcia.

Johnson and Emmett Ellis according to Ladner, admitted breaking into the trunk of a car owned by M. D. Rutherford on the night of September 24 and taking a wheel, tire tool box, a supply of tools and a six foot drill shrimp net.

They implicated James Ellis, but he denied having taken part in the robbery of the Rutherford car.

Emmett Ellis and Johnson, Ladner continued, allegedly admitted taking the wheel and tire from an automobile belonging to J. D. Green, bridge tender, which was parked near the railroad at the corner of Touline Street on the night of September 22.

Sheriff Ladner said the tire had been recovered. He also said some of the stolen tools were found in Emmett Ellis' car and on a search warrant he and Pat Garcia had recovered the tool box and some of the tools at the Ellis home.

Johnson and Emmett Ellis, Ladner stated, committed the theft of a jack taken from a city truck about four weeks ago. The jack was found in the trunk of the Ellis car.

Sheriff Ladner added they have two other suspects in connection with the theft of the tire and wheel from the Green car.

Introductions of a number of Coast officials and short talks were made by Congressman Wm. M. Colmer and Lieut. Gov. Carroll Gartin, both of whom spoke of the honor Miss Mobley had brought to Mississippi.

Attending the banquet from Bay St. Louis and Waveland were Mayor and Mrs. John A. Seafide, J. Cyril Glover, Jr. and Mrs. Warren Traub, Mrs. Mabel Green, president of the Chamber of Commerce, Mrs. Waldo Otis, Myrna Quarterman, City Attorney and Mrs. Dan Russell, Mr. and Mrs. Henry Osinich, Mr. and Mrs. Johnson Shaw, Mr. and Mrs. R. G. Hubbard, Mr. and Mrs. Charles Russ, Mayor and Mrs. Garfield Ladner, Mr. and Mrs. Norvin Penland, Mr. and Mrs. Fred Bourgouis, Mrs. Thelma Landry, Tony Bourgouis and Mrs. Dot Weidman.

Miss America spent the night at the Buena Vista Hotel and left Wednesday morning from New Orleans by plane for Milwaukee, Wis.

Miss America was greeted by officials at Waveland.

John Seafide welcomed Mary Ann Mobley, Miss America, at the Hancock County Courthouse, Tuesday morning before a large gathering.

Mayor presented her with a bouquet of American Beauties on behalf of the City of Bay St. Louis. In making the presentation, Mayor Seafide told Mobley that "she was the typical American Beauty." She responded graciously, expressing her appreciation for the invitation to come to St. Louis, for the warm reception given her and for the hospitality and loyalty of the people of Mississippi. She added that the day would be a "never forgotten day" in her life.

She was followed by a stop at the Bay High School Band, and an official greeting and presentation of a key to the city.

Mobley wore a red cotton dress with a large collar and a small plaid material. She wore a black velvet beret and black shoes. She completed her attire with a small black bag.

Two youths were picked up Friday night by Sheriff Sylvan Ladner, after he had received a call that they were seen in the neighborhood of Second Street acting in a suspicious manner.

When first questioned by Sheriff Ladner and Deputy Raoul Telhiard, the boys, Private Robert Heath, 18, of Colorado, and Private Jerry Richert, 17, of Fort Meade, Colorado, said they were traveling through the country.

After further questioning, they admitted breaking in and robbing the Dairy Dream last Wednesday, Ladner added.

The Hancock County Eagle is authorized to announce the candidacy of Mr. John Toomey, for the office of Marshal and Tax Collector of the Town of Waveland, subject to the action of the Democratic Election, which will be held on Tuesday, November 4, 1958.

Mr. Toomey's statement to the voters of Waveland, follows:

I wish to announce my candidacy for the office of Marshal and Tax Collector of the Town of Waveland in the November 4th election.

I am 30 years of age, married and have two children. I have been a life-long resident of Waveland. My education consisted of Military Schools, High School and nearly two years of College. I served in the U. S. Marines, 1st Division, for 5 years, during the time of World War II, and in the U. S. Army for 3 years, during the Korean War.

With these qualifications, I feel confident that I can and WILL be the kind of law enforcement officer we need in Waveland. There are not many laws broken in our small community, but the disregard of speed limits with its tragic result is getting out of hand. I pledge to enforce these speed laws for the protection of your children and mine.

As for the office work, I have the education to do this in a neat and efficient manner.

Before election, I hope to contact each and every voter personally.

Please remember, when you go to the polls on November 4th, if you really want a Town Marshal who will perform the duties that the office requires, vote for JOHN TOOMEY.

The brucellosis area testing in Hancock County has reached the stage where the County is declared a modified, certified brucellosis-free area. A certificate to this effect has been awarded the Board of Supervisors and the County Agent.

The Board of Supervisors adopted this program, in cooperation with the Animal Disease Eradication Division of the Department of Agriculture, and the State Livestock Sanitary Board at their meeting early in the year of 1957. The testing began April 10, 1957; and after having tested 700 herds and 11,152 cattle, it was determined that the rate of infection to the total number of cattle tested was 1.8 per cent. Infected herds were retested until herd infection was reduced to 1 percent and cattle infection to 0.1 (one-tenth of one percent). To certify a county it is necessary that not over 5 percent of the herds and not over one percent of the cattle be infected.

The program was under the supervision of Dr. P. D. Necaise, veterinarian with the Animal Disease Eradication Division of the Department of Agriculture and was directed by him and Mr. Howard F. Simmons, the County Agent.

The cattle owners are to be complimented on their cooperation. No disease can be brought under control or eradicated without the whole hearted support of livestock owners.

Dr. Necaise stated that cattle owners should not take a complacent attitude because the county is a modified-certified area. These herds proven free on the test should make every effort to remain free. If additions are made to the herd, buy only cattle recently tested or vaccinated as calves and buy from herds free of disease.

It is wise also, to vaccinate heifer calves between 4 and 8 months of age—just in case infection should get into your herd or herds in your neighborhood.

The herds which showed infection when tested on the area program, should be retested until they are completely free of Bang's disease. If these findings are done the county will have eradicated brucellosis. And with good herd management and the practice of proper sanitary measures, Hancock County can remain free of Bang's disease.

## LAMBS GAIN MORE WITH STILBESTROL IN STATION TESTS

State College, Miss.—Sheepmen who fatten lambs on winter grazing may increase their profits by using stilbestrol, according to recent tests conducted by the Mississippi Agricultural Experiment Station.

Tests last winter involved 694 lambs at five different locations. Four were at Experiment Stations—State College, Natchez, Oakley and Brooksville, and the fifth was on the Delta farm of J. A. Ely, Jr., at Shaw. The stilbestrol was implanted in the loose skin of the lamb's ear and lambs receiving it gained about 3 pounds more than those in the untreated group.

Similar trials conducted the year before (1956-57) produced greater gains than were obtained last winter, largely because of the difference in weather which affected growth of the winter grazing crops. Gains attributed to stilbestrol averaged about 7 lbs. per lamb.

"In almost every case the hormone treatment promoted increased gains both in ewes and wethers," R. A. Edgar, of the animal husbandry staff at Mississippi State University, reported. "Even though the increases were small, the treatments were economical because the cost of the stilbestrol implants should not exceed 10 percent per head. There were no undesirable side effects noted and the hormone does not lower the live slaughter grades."

In recent years sheepmen in Mississippi have been buying feeder lambs in increasing numbers, both locally and from the South-west, to fatten on winter grazing. They are normally bought in the fall and marketed as grass fat lambs in the spring.

A complete report on these experiments is published in the October issue of Mississippi Farm Research available on request from the Experiment Station at State College.

## COUNTY AGENT'S NOTES

BY HOWARD F. SIMMONS  
Hancock County Agent

### SWEETPOTATO CURING

For best results in curing sweetpotatoes, provide a storage house temperature of 85 degrees F. as the house is being filled. Main- tain this temperature for five to eight days.

The humidity in the house should also be kept high; 85 to 90 percent, both in curing and for storage.

In most cases it is best to keep all doors and ventilators closed during the curing period, except to prevent drops of water from forming on walls and ceiling.

After curing is completed, reduce the house temperature to 55 to 60 degrees as soon as possible. Maintain the house at this temperature during the storage period. Do not let the temperature drop below 50 degrees F.

### DAIRY REPLACEMENTS

To a large extent your future dairy herd depends upon your present herd size.

For a majority of dairymen, the herd size is answered in artificial breeding. Service is available in 60 counties from bulls of three dairy breeds—Jersey, Guernsey and Holstein—in areas using frozen semen, all five breeds are available.

Bulls in the artificial breeding service are backed by outstanding production records. Many of the bulls have daughters milking in Mississippi. For more information, call your local county agent.

### CORN PICKER SAFETY

Mechanical corn pickers can be the most dangerous of farm machines when used carelessly. To insure safety, operation must be done in the proper manner.

## WAVELAND WANDERINGS

by GEORGETTE B. HALL

"Miss America" Mary Ann Mobley came to Waveland Tuesday and won the hearts and loyalty of everyone who saw her. One of the largest crowds ever gathered at Waveland's Town Hall greeted the crowned brunette and were captivated by her dazzling smile, her Southern charm, her poise and her beauty. It was a double pleasure for the town folks who saw her because she is one of Mississippi's own, and the first Miss America to be chosen from this state in the long history of the Miss America pageant. Clad in deep red, with a saucy black velvet beret type hat, and white gloves, the Waveland, Mississippi, miss looked wholesome and vivacious, though just a little tired from the long and hurried trip along the Gulf Coast from Moss Point to Waveland. Our town was the last stop on the motorcade, and when she arrived here in a gleaming convertible with a large escort, she was carrying a large bouquet of red roses which had been presented to her in Bay St. Louis.

Mayor Garfield Ladner introduced her to the crowd and presented her with the Key to Waveland. She responded with a short speech and one "you all" was detected. She said that she was delighted to visit Waveland and even though she had never been here before, she planned to return. Her appearance was not without a touch of human interest. She paused long enough to converse with young "Dubbie" Price, a polo victim, and gave him one of the roses from her bouquet. When the ceremony was over, she descended the steps of the Town Hall, and greeted her friends Herbert and Merle Steffel, classmates of hers in the class of 1937 at Ole Miss. Herbert and Merle spoke to her and presented their young son, Herbie, Jr., Mary Ann bestowed a kiss on the youngster and also gave him a rose from her bouquet.

Riding in the motorcade which accompanied Miss Mobley during part of her trip were Waveland officials and their wives. Along with Mayor Garfield Ladner were Mr. Willie Bourgeois, Marshal Fred Bourgeois, Mr. Cornelius Herlihy, Mr. Norvin Penrose, Mr. Alvin Weinfurter, and Mr. Tony Bourgeois. The ladies followed and among those who were present were Mesdames Helen Ruhr, Belaski, Cornelius Herlihy, Fred Bourgeois, and Thelma Landry. Much credit goes to everyone who helped make "Miss America's" visit pleasant and memorable one. Thanks is extended to Mr. Joe Colson for the pennants, streamers and welcoming signs that greeted Miss Mobley as she arrived in Waveland. Thanks also are extended to Mrs. H. A.
